Anti-Poverty Legislation Is Approved

[For full text see page 1, top, Page A-2]
WASHINGTON, Aug. 7 (AP)—The House handed President Johnson a solid, major victory tonight approving his high-priority anti-poverty bill, but a final vote was delayed until tomorrow. Opponents raised a technically-demanding a specially printed copy of the bill—after administration forces had saved the bill from the brink of defeat and approved it by a 228 to 190 roll call vote. That vote was on the bill as an amendment to the original measure brought before the House, which was changed to bring it into closer conformity with one passed earlier by the Senate.

High Point Collision Fatal For 2

GREENSBORO Daily News High Point Bureau
HIGH POINT, Aug. 7.—Two persons died and two others injured, one seriously, as the result of a wreck caused by a car driving on the wrong side of the highway at excessive speeds on Interstate Highway 85 about 4:30 p.m. today.

Police late today had not determined just where Winfred Luck, 50, of High Point, entered the south bound lane of the super highway and proceeded north. He was dead on arrival at High Memorial Hospital.

Mrs. Earvin Lee Adams, 56, of 515 Northridge St., Greensboro, was given emergency treatment here at High Memorial Hospital after she was struck in the ambulance while being transferred to Wesley Long Hospital in Greensboro. The attending physicians here said she had suffered extensive head injuries in the wreck plus a fractured right wrist, severe lacerations of the left arm and a possible fractured right hip.

Her granddaughter, Trancee Lee Adams, 8, of 206 Meadow Road, Greensboro, was given emergency treatment here for head injuries when she was struck in the car by a 1964 Chevrolet, and injuries around the mouth before being transferred to Wesley Long Hospital in Greensboro. Her scars in administration posters.

Rep. Howard W. Smith, D-Va., launched the maneuver by offering a motion to strike the enactment clause and thus kill the measure.

On a teller vote, with only 305 members on hand, the Republicans and their conservative southern Democratic allies turned out in force and carried the motion 170 to 135.

But immediately following the roll call vote, 117 more members—and put them all on record—and in this test the leaders won 245 to 197.

This enabled the House to proceed into the final stages of debate preparatory to the final vote on the bill which Johnson has placed at the top of his priority list for domestic legislation.

Hunted Man Captured

DALLAS, Tex., Aug. 7 (AP)—FBI agents late today arrested a man they identified as Lt. Col. Oscar T. Bucholz Jr., an Army deserter from a top secret project at Ft. Monroe, Va.

J. Gordon Shanklin, agent in charge here for the Federal Bureau of Investigation, said Bucholz fled after being spotted at a store and was captured in a car on a busy Dallas freeway.

He said Bucholz had been sought throughout the country since disappearing July 1 from the Conark project at Ft. Monro, Va. Shanklin reported these details: Personnel at Sears, Roebuck and J. C. Penney stores across the nation were alerted because Bucholz made a practice of buying on credit from those firms.

Dallas police were notified that Bucholz sought to make a purchase at a Sears store today but he was captured in afternoon traffic before officers arrived. He was captured later.

BIPARTISAN RESOLUTION ADOPTED OVERWHELMINGLY

Vietnamese Action Endorsed

WASHINGTON, Aug. 7 (AP)—Both houses of Congress gave President Johnson a smashing victory of confidence today in the Viet Nam-Southeast Asia crisis.

The House adopted a bipartisan resolution backing the President's actions as commander in chief of the armed forces, and the Senate followed with an 88 to 2 endorsement.

The opposition votes were cast by two Democrats, Sens. Wayne Morse of Oregon, who has repeatedly denounced U.S. policies in Southeast Asia as a threat to world peace, and Ernest Gruening of Alaska.

Gruening told the Senate "All Viet Nam is not worth the life of a single American boy." Johnson hailed the action as "a demonstration to all the world of the unity of all Americans."

In a statement expressing appreciation to members of both parties for "their patriotic, resolute and rapid action," Johnson said:

"The votes prove our determination to defend our forces, to prevent aggression and to work firmly and steadily for peace and security in the area."

Sen. Barry Goldwater of Arizona, the GOP presidential nominee, joined fellow Republicans in voting approval and support of Johnson's decision to strike back at Communist North Vietnamese attacks on U.S. warships in the Gulf of Tonkin.

Goldwater did not take part in the debate, but he announced his support of Johnson's action just before the Presidential vote.

Morse, allotted an additional two hours under a debate-changing agreement which gave the other senators one hour among them, cried out to a virtually empty chamber that "no matter who was President nor how good were his intentions, 'un-sanctioned acts of war can lead to an all-out nuclear war and the end of this republic.'"

Only Sen. Mike Mansfield of Montana, the Democratic leader, and the newly appointed Democratic senator from California, Pierre Salinger, present as Morse spoke. Salinger, former White House press secretary, occupied the dais as acting presiding officer.

While no negative votes were cast in the House, Rep. Adam Clayton Powell, D-N.Y., took a noncommittal position by voting "present" and Rep. Eugene Miller, R-Ky., was announced as paired against the resolution.

would have voted "no" on the roll call.

In a statement released by his office, Siler said he opposed the resolution as unnecessary and contended the United States has no business fighting in Viet Nam.

"If I should send my son into the street where a fight is in progress and if he got stung with a stone," Siler said, "I feel I should not then send his big brother over into the house that frung the stone. Rather I should call the son home and help him to tend to his backyard business."

"Powell told newsmen who inquired about his stand: 'I have always been a pacifist. I have been for 34 years as a minister. But when my country is absolutely in progress as in time of war, then I will support it.'"

The Communists decide to do, in Washington's opinion.

The high U.S. authorities are anxious to see that the Communists, but they said they knew of no overt military action which would indicate Communist intent to step up the fighting now.

Strict Rules Are Declared In Viet Nam

SAIGON, Viet Nam, Aug. 7 (AP)—Virtual martial law gripped South Viet Nam tonight by a decree of President Nguyen Khanh aimed at strengthening the fight against communism.

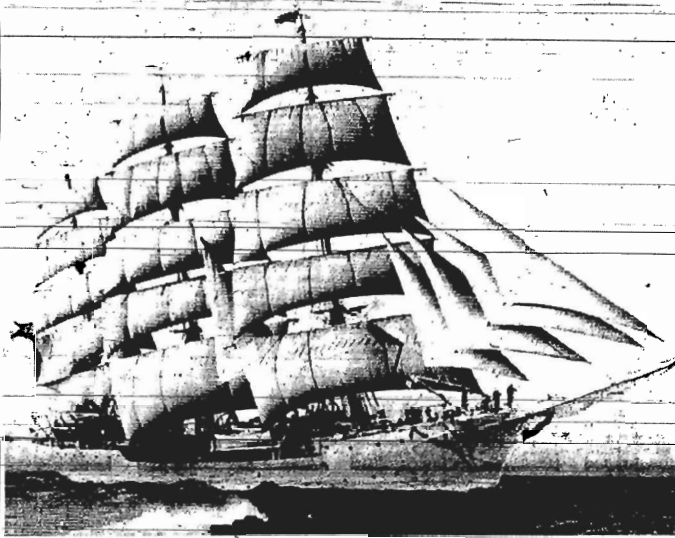

With the danger of an attack from the north evidently ebbing, Khanh proclaimed a state of emergency across the entire U.S. and South Vietnamese military forces have been in a state of alert all day.

A U.S. embassy spokesman said Ambassador Maxwell D. Taylor talked to Khanh before the decree was made public.

The spokesman said it was not clear for the United States to comment on the decree because it was an internal matter, but it results included increased mobilization and a step-up in strikes against North Viet Nam targets so that country "and others" would know the action was "to be limited to North Viet Nam."

McNamara made his statement after chronologies showed that Johnson went on the air while the first carrier planes were still winging toward target.

Arthur Sylvester, Pentagon information chief, said the McNamara explanation was issued because of "some confusion" about the timing of the President's nationwide address late Tuesday night.

BORNE ON THE WIND
Reminder of the days when sail was king, the Norwegian square-rigger Christian Radich makes for port at Chicago. The view is as taken from the tug which met the Christian Radich about 16 miles out in Lake Michigan, so it could take her into port.

Commercial Code Set For Study

BY ARTHUR JOHNSY
GREENSBORO Daily News Bureau
RALEIGH, Aug. 7.—The State Legislative Council decided today to spend \$5,000 in comparing a proposed uniform commercial code already adopted by 41 other states, to North Carolina's commercial laws.

The purpose: to give members of the Legislature an opportunity to understand clearly what changes will be caused by adoption of the model code for the sake of uniformity throughout the country.

The expenditure was opposed by State Sen. Cicero Yow of Wilmington and State Sen. Thomas M. White of Kinston.

Yow said he was basing his opposition on information that the state's attorney general has ruled it illegal for the comptroller to spend money for the study because of the state constitution.

The NAACP chapter voted Sunday to ask Mayor Bagnal for a statement on Mayorville's position on public accommodations under the Civil Rights Law. But Wood said the vote was not aimed at the swimming pools in particular.

Smaller Counties May Lose Seats

BY ARTHUR JOHNSY
GREENSBORO Daily News Bureau
RALEIGH, Aug. 7.—North Carolina's smaller counties may have to surrender their right to a guaranteed seat in each congressional district in every legislative election.

Clyde L. Ball, an assistant director of the institute, released a report today to the State Legislative Council on recent U.S. Supreme Court decisions on reapportionment, the ultimate decision will pass to a three-judge federal district court.

"The existing House apportionment, which conforms precisely to the North Carolina Constitution, clearly fails to meet the federal minimum," Ball said.

A major finding of the court is six landmark cases, Ball said, which "seats in both houses of a bicameral legislature must be apportioned substantially on a population basis."

"We mean that the equal protection clause requires that a state make an honest and good faith effort to construct districts, in both houses of its legislature, as nearly of equal population as is practicable."

President Taps Lodge For Visits

WASHINGTON, Aug. 7 (AP)—Former Ambassador Henry Cabot Lodge agreed to a request by President Johnson today that he visit allied capitals to acquaint leaders with the U.S. position and purposes in Southeast Asia.

Lodge made the announcement after a long White House conference.

Johnson walked with Lodge through the White House lobby and turned him over to waiting newsmen and photographers.

Lodge said the President and Secretary of State Dean Rusk asked him to visit an unspecified number of Allied capitals.

He said the itinerary still is to be worked out, but that he intends to leave within a week. Asked whether he also might visit neutralist capitals, Lodge reiterated that his schedule has not been completed.

TEXAS TOWN IS STRUCK BY STORM

MATAGORDA, Tex., Aug. 7 (UPI)—Abby, the first tropical storm of the season, hit Matagorda today with gusts up to 60 miles an hour and eight to 10 inches of lashing rain.

No deaths or injuries were reported. Damage was scattered and lighted television antennas, ripped awnings and uprooted trees.

PLANES STRAFE TOWN

NICOSIA, Cyprus, Saturday, Aug. 8.—The Greek Cypriot government charged four Turkish air force Sabre jets attacked Paphos and hit an Italian ship today, but Turkey firmly denied it today.

The Turkish government said its planes flew over the embattled eastern Mediterranean island Friday and would be back today, for reconnaissance, but insisted no bullets were fired.

INTEGRATION AT ISSUE

Statesville To Hold Vote On Support Of Two Pools

STATESVILLE, Aug. 7 (AP)—City councilmen in Statesville decided today the "peaceful way" to settle the problem of integrating the city's two pools would be a referendum in September.

The city council authorized a referendum on a recreation tax used to support the pools, which operated this year on a voluntary segregated basis.

Today's Chuckle

"The candystick-maker's business is a little different from the candlestick-maker's business in that the candlestick-maker has to sit on wick-ends."

Greek Cypriots Report Attack By Turkish Jets

"They (Greek Cypriots) must have mistakenly taken the jet planes' noses for machine gun fire."

When news of this reached the Greek Cypriot side of the city, national guardsmen were put on alert and an ultimatum was issued saying the Greek Cypriots would attack unless their men were released. They were not released.

Two Tests

The court set up two tests of equal representation, Ball said. (1) The "minimum controlling percentage," or the percentage of the total population of a state which resides in the least populous districts which together constitute control; and (2) the "population variance ratio," or the ratio between the most populous and the least populous counties.

When news of this reached the Greek Cypriot side of the city, national guardsmen were put on alert and an ultimatum was issued saying the Greek Cypriots would attack unless their men were released. They were not released.
